

REMARKS

Claims 1-17 and 24-44 were pending in this application before the present response.

In response to the final Office Action, Applicants respectfully request that the Examiner amend the present application in the manner set forth in this Amendment. Applicants respectfully submit that this Amendment After Final Rejection addresses formal matters raised in a previous Office Action, and places this application in condition for allowance by amending claims in a manner that is believed to render all pending claims allowable over the cited art.

Claims 16 and 35 have been amended as suggested by the Examiner. They have been rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Dependent claims 2-7, 9-15, 17, and 42 have been amended to adjust their dependencies to depend from newly independent claim 16. Dependent claims 25-27 and 30-33 have been amended to adjust their dependencies to depend from newly independent claim 35.

Claims 1, 24, 34, 36-41 and 43-44 are hereby cancelled, without prejudice or disclaimer.

No new matter is added by the amendments. Applicants respectfully submit that this Amendment does not add any new features and does not significantly alter the scope of the claims. Entry of the present Amendment is respectfully requested under 37 C.F.R. §1.116.

Claims 2-17, 25-33, 35, and 42 are now pending in this application. Applicant respectfully requests reconsideration and allowance of all pending claims, in view of the amendments and following remarks.

Allowable Subject Matter:

In the final Office Action, the Examiner indicated the presence of allowable subject matter in claims 16 and 35. Applicant wishes to thank the Examiner for this identification of allowable subject matter.

Applicant agrees with the Examiner's conclusions regarding the patentability of these claims, without necessarily agreeing with or acquiescing in the Examiner's reasoning. In particular, Applicant believes that the application is allowable because the prior art fails to teach, anticipate or render obvious the invention as claimed, independent of how the claims or claimed subject matter may be paraphrased.

Applicant has amended the claims as suggested by the Examiner. Claims 16 and 35 are rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Rejections Under 35 U.S.C. § 103(a)

In light of the foregoing amendments and discussion, Applicant respectfully requests withdrawal of the claim rejections under 35 U.S.C. § 103(a), which are believed moot.

Conclusion

Applicant respectfully requests that a timely Notice of Allowance be issued in this case. Should the Examiner have any questions, comments, or suggestions, the Examiner is invited to contact the Applicant's attorney at the telephone number indicated below.

Respectfully submitted,

SAMUEL REICHGOTT, et al.
